

CHEMICAL ANALYSIS TESTING SERVICES

Chemical & Analytical Analysis

We offer a wide range of chemical analysis, with advanced instruments such as **HPLC, GCMS, GC, GPC, LC-MS and etc.**

Apart from that we also offer extensive range of analytical test from **AFM, CHN elemental analyser, TPD, TPO and TPR analysis, NMR and etc.**

Surface Area Analysis

We conduct surface area analysis with different ranges. Techniques used include **Surface Analyzer-Chemisorption, Surface Analyzer-Porosity and Surface Tensiometer.**

Heavy Metal Determination

We offer Atomic Absorption Analysis (**AAS**), Inductively Coupled Plasma Mass Spectrometry (**ICP-MS**) and Inductively Coupled Plasma Optical Emission Spectrometry (**ICP-OES**).

Other Testing Services

Spectroscopy Analysis, Thermal, Electrochemical and Microscopy Analysis, Guoy Balance, Zeta Potential, Crystallization Analysis and etc.

USAINS BIOMICS
LABORATORY TESTING SERVICES SDN BHD (Co.No.937636-D)
(formerly known as Usains Biomics Sdn Bhd)

Suite 016, Eureka Complex, Universiti Sains Malaysia,
11800, Pulau Pinang, Malaysia.
