

DRUGS OF ABUSE TARGET SCREENING & CONFIRMATION TESTING

Usains Biomics Laboratory Testing Services Sdn Bhd offers a complete suite of test for common drugs of abuse in human urine.

Our laboratories, as well as that of our partner laboratories in Universiti Sains Malaysia are accredited with the MS ISO/IEC 17025 quality system to perform target screening and confirmation tests for drugs of abuse in urine. We are equipped with required instrumentation to deliver accurate, reliable and timely results to our customers.
